Alaska Business Week offers weeklong summer camps for high school students

Alaska Business Week is a fun, intensive entrepreneurship experience for high school students. ABW runs one-week programs teaching the basics of business, leadership and entrepreneurship.

Participants compete as teams in a dynamic business simulation with the guidance of adult mentors from the business community. After completing the program, students have a competitive edge on workplace readiness, college preparation, and overall life success.

At ABW, students get personal experience working with real business leaders, company founders and CEOs. At the start of each camp, students form dedicated teams or 'companies' to compete in a gamified business simulation. The curriculum is designed to promote leadership, ethical decision-making, public speaking, collaborative teamwork, and profitable entrepreneurship for Alaska communities.
